

SAFARI SAHARA

“98

Step into a Sahara and recognize the quality. Beautiful hardwood cabinetry, durable berber carpeting, and rich, tasteful decor. Spacious, thoughtfully laid-out floor plans that provide ample storage and living space. The largest basement storage of any coach of its size. And of course, the custom Magnum chassis with its superb handling and real Cat™ diesel power. Step into a Sahara - and see the Safari difference.

The chef will appreciate Sahara's fully appointed galley. The appliances are full-sized, including residential stove, oven, and sinks. The optional icemaker is convenient and thrifty. Only the

Sahara Edition offers you your choice of solid-surface countertops: FountainHead™ or new Genovese™. With either option, the Sahara Edition provides a spacious, easy-care galley.

Sahara: The Luxury Diesel You Have Been Looking For

The Sahara Edition offers what few other can: choices. Five great floor plans, including slide outs. No one else offers a diesel pusher that is small and spacious like the Sahara 3044. No one else offers front and side door options in so many floor plans. And no one else offers exciting new options like the Hurricane™ hydronic heating system and Bose™ home theater system.

If you enjoy long, hot showers, you'll love the fact that the Hurricane™ provides unlimited hot water. It also heats your coach

quietly, without the harsh drying effect of a forced air furnace.

Bose Corporation designed its new stereo and home theater system specifically for Safari, and the result is an easy-to-use system that provides incredibly life-like sound.

The Sahara Edition comes fully equipped, complete with generator, inverter, solar panels, rear camera, levellers, residential lighting - all the features the luxury coach buyer demands. The Sahara is the full-featured diesel pusher you've been looking for.

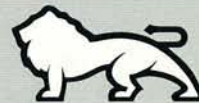

Safari Motor Coaches is in business for one purpose - to build luxury motorhomes. That single-minded dedication to its customers and its products is one reason why Safari is America's premier luxury coach builder. The Sahara Edition is one of our most popular products. It's a full-featured diesel pusher at an attractive price, and it offers amenities that are generally found only on ultra-expensive touring coaches and bus conversions. Outstanding luxury at a reasonable price - one reason Safari is America's favorite luxury coach.
